

LFLB-2240 Horizontal Round Bottle Labeler

Horizontal Round Bottle Labeling Machine LFLB-2240 is a round labeling machine. It's designed especially for the pharmaceutical, healthcare, and food industries. It's especially used for small round bottles with high-speed labeling, high precision of labeling.

Feature

Man-machine operation interface, any troubles will be displayed and inducted to remove. simple operation, anyone can easily operate this round labeling machine. Coder and ink-jet printer are optional to realize information printing while labeling.

1. Labeling height and angle are adjustable.
2. Pharmaceutical class conveyor suits for pharmaceutical products such as ampoule and syringe.
3. Conveyors can be designed according to the diameter of products.
4. Wrap station flat labels smoothly for perfect labeling.
5. Automatic feeding device is available to feed products automatically and horizontally.
6. Controlled by a user-friendly microprocessor control system.
7. LED screen shows digital information clearly.
8. Memory parameters save massive time when changeover.

Technical Psrameters

Model	LFLB-2240
Max. speed	400 bpm

Container size	φ10mm-φ30mm H:10-130mm
Label dispensing accuracy	±0.5 mm
Power supply	AC 220V 50-60 Hz,
Power absorption	1.5 kW
Dimension(L x W x H) mm	3000 x 650 x 1650
Conveyor height	920±60 mm
Weight	500 kg
