

## ***SF-G2S Automatic Servo Pet Plastic Aluminium Can Sealing Machine***

The automatic servo can sealing machine is suitable for packaging various round-mouth tinplate cans, aluminum cans, plastic cans and paper cans. Servo control makes the equipment operation more stable, safe and intelligent, and the adjustment and maintenance are simpler and more convenient.

### **Features:**

1. The machine can automatically complete a series of processes such as can feeding, cap placement, and sealing.
2. Siemens PLC control system makes the machine operate more stably and work more efficiently.
3. The can body does not rotate during the sealing process, which is especially suitable for fragile materials and liquids, making the production process safer.
4. The seaming rollers and pressing head are processed by Cr12 die steel, which is durable and high tightness.
5. The machine is made of SUS304 stainless steel, which is corrosion-resistant, has a long service life and is easy to clean and maintain.

### **Specification**

Model No.	SF-G2S
Sealing Head Number	1
Sealling Speed	25-35 cans/min (Depends on can size)
Sealing Height	50-250mm
Sealing Can Diameter	φ30-150mm
Machine Size	1850(L)* 840(W)* 1650(H)mm
Machine Weight	550kg
Power	220V, 50/60HZ, 1.2kw
