

FK807 Automatic Horizontal Round Bottle Labeling Machine

FK807 is suitable for labeling various small-sized cylindrical and conical products, such as cosmetic round bottles, small medicine bottles, plastic bottles, PET round bottles 502 glue bottle labeling, oral liquid bottle labeling, pen holder labeling, lipstick labeling, and other small round bottles etc. It is widely used in round bottle labeling in food, cosmetics, wine making, medicine, beverage, chemical industry and other industries, and can realize full product coverage labeling.

Machine Description

FK807 has additional functions to increase options:

- Optional automatic rotary bottling machine.
- It can be directly connected to the production line to realize automatic bottling and improve production efficiency.
- The optional ribbon coding machine can be added to the label head, and the production batch, production date and expiration date can be printed at the same time. Reduce packaging procedures and greatly improve production efficiency.
- Automatic feeding function (combined with product consideration);
- Automatic material collection function (combined with product consideration);
- Increase labeling device;

The adjustment method of FK807 is simple. It adopts the sponge labeling method, which can be labeled according to the product positioning. The labeling accuracy is high, the quality is good, and the speed is fast. It is difficult to see the error with the naked eye. It is the best choice for high-yield products.

Technical Parameters

Parameter	Date
Label Specification	Adhesive sticker, transparent or opaque
Labeling Tolerance	±1mm
Capacity(pcs/min)	100~300
Suit product size(mm)	Φ10~φ30;Can be customized
Suit label size(mm)	L:20-290;W(H):20-130
Machine Size(L*W*H)	≈2100*720*1450(mm)
Pack Size(L*W*H)	≈2010*750*1400(mm)
Voltage	220V/50(60)HZ;Can be customized
Power	940W
N.W(KG)	≈185.0
G.W(KG)	≈356.0
Label Roll	ID:Ø76mm; OD:≤300mm
