

SP-CM-L Automatic Capping Machine

This Automatic Capping Machine is economical, and easy to operate. This versatile in-line capper handles a wide range of containers at speed up to 120 bottles per minute and offers a quick and easy changeover that maximizes production flexibility. The tightening discs are gentle which will not damage caps but with an excellent capping performance.

Features

- Adjustable cap chute for different sizes of caps
- Variable speed control
- PLC control system
- Auto stop and alarm when lack of cap
- Stainless steel construction
- 3 sets of tightening discs
- No-tool adjustment
- Optional cap feeding system: elevator or vibrator

Technical Specification

Model	SP-CM-L
Capping speed	30-60 bottles/min
Bottle dimension	Φ 30-90mm H60-200mm
Cap dia.	Φ 25-80mm
Power Supply	1 Phase AC220V 50/60Hz
Total power	1.3KW
Total Weight	500kg
Overall Dimension	2400×1000×1800mm
