

## ***DKX50 Horizontal High-speed Carton Erector and Bottom Sealer Box Sealing Packaging Machine***

Horizontal storage is adopted for storing carton blanks, for which carton blanks can be added at any time without stopping the machine;

It's suitable for forming and sealing cartons of the same size. If carton size need to be changed, the operator should adjust the machine manually (finishing in 2-3 minutes);

It's rationally designed so that the forming, folding and sealing process are accomplished simultaneously;

All the parts are precise and durable, without causing any vibration in running. Running steadily with long life;

Light in weight, high performance and speed.

### **Technical Parameters**

Model	DKX50
Carton size	L240-510mm, W190-400mm, H120-400mm
Table height	960-1000mm
Speed	10-30 box/min
Machine dimension	2120 (L)*1410(W)*2000 (H)mm
Power Supply	220V/380V 50-60HZ
Air source	About 200L/min, 0.5-0.7 MPa
Tape	W48-60mm
