

SM-1/2 Cotton Inserter

Exclusively used in medical cotton sliver automatically feeding, length dispensing and inserting process.

- Strong compatibility, suitable for all kinds of specifications, all kinds of materials round, flat, square, flat square bottles.
- With no bottle does not work, fault self-check, tampon change early warning and other detection and alarm control functions, to ensure continuity and accuracy.
- Using pneumatic cotton plug technology, avoid the machine to the material pollution.
- Easy to change varieties, automatic lifting.
- Vacuum under negative pressure to ensure clean working environment.
- Fully automatic operation, intelligent joint control with upper and lower processes, good coordination, no special operation, labor saving, cost-effective, economic and practical.
- The control chip is originally imported from the United States, and the photoelectric sensing component is produced in Taiwan, which is stable and durable.

Technical Parameters

Model	SM-1	SM-2
Max Capacity	50BPM	100BPM
Voltage and power	220V/50HZ 0.7kw	220V/50HZ 0.9kw
The compressed air supply	0.6 Mpa ; 200L/min	0.6 Mpa ; 300L/min
Main material of equipment	SS304	SS304
Control system	MCU	MCU
Size	1600×750×1400mm	1900×750×1400mm
