

LD-TS100 Automatic Tube Filling And Sealing Machine Paste Liquid Plastic Tube Sealing Machine

It's applicable to toothpaste, paste, cosmetic, cream, shampoo, pharmaceutical, food, industry product and other soft tube sealing. Extensional organization of the machine is made of aluminum alloy and stainless steel.

Features:

1. The machine adopts a fully enclosed dust cover, the machine body is made of SUS304 material, and the appearance is unique and beautiful.
2. The replacement of the base is suitable for filling and sealing various specifications of pipes, the sealing appearance is neat and tidy, and the sealing is firm.
3. The photoelectric benchmarking workstation uses high-precision probes, stepping motors and other precise control patterns to be located in the correct position.
4. The filling speed and measurement accuracy are convenient and adjustable, with high adjustment accuracy and good stability.
5. The machine can be equipped with various filling methods of different specifications to meet the filling requirements of different viscosities.
6. The internal heating is heated by Leister hot air gun, and the external water-cooling device is configured to cool down to make the sealing more beautiful.

Specification:

Model	LD-TS100
Sealing speed	0—40 pcs/min
Sealing range	5-300 ml
Tube height	50—150 mm
Tube diameter	10—45 mm
Siza	1100*850*1600 mm
Power	2.5 KW
Weight	550 KG
