

WSV Series Vertical Chamber type Vacuum Sealer

The vertical chamber vacuum sealer features a painted body (optional SUS304 stainless steel version available). It is compatible with various vacuum bags, with packaging size limited by the chamber dimensions.

Features

- Deep chamber design, ideal for large packaging
- Suitable for vacuum packaging of liquids and powders, but contents should not exceed 50% of the bag's capacity
- Memory function: stores up to 10 frequently used settings for quick operation
- Sealing width: 3.2mm, dual-line sealing (top & bottom)

Specification

Specification	WSV-460E	WSV-620E
Voltage	220/240V 1Phase	220/240V 3Phase
Vacuum Chamber Dimensions	480*300*800mm	620*300*800mm
Watt	0.9KW	1.5KW
Max. Sealing (L*W)	460*3.2mm *2	620*3.2mm *2
Pump Capacity	Oil-Type 1HP	Germany Leybold 2HP
Dimension	830*760*1235mm	860*930*1235mm
Machine Weight	100KGS	110KGS
Air Compressor	Customer prepares 6-7KG/CM2 (1HP)
