

Automatic Front and Back Labeling Machine SBM-LM650A

The model SBM-LM650A Automatic Front and Back Labeler is fit for all kinds of bottle. Such as oval shaped, square, flat, and round bottles. It can use both label applicators simultaneously or run individually.

The whole double sided labeling machine adopts elaborate DIY design. By eliminating unnecessary complex and heavy machinery, it adopts suit type assembly. The maintenance and servicing can be completed without professionals. When it is necessary to replace the product, just make some simple adjustments, it can be immediately put online for production.

Application

It is suitable for labeling various round bottles (tanks) in such industries as food, condiment, medicine, wine, oil and cosmetics etc.

Features

- Adopt mature PLC control system technology, make the whole machine stable and high-speed;
- Can be suitable for square /round/oval flat bottles at the same time;
- Use touch screen control system, make operation simple, practical and efficient;
- Upgraded butterfly labeling station design, can be applied for conical bottle labeling;
- Screw adjust the suppression mechanism, high accuracy;
- Synchronization chain mechanism, to ensure smooth and precise calibration;
- Transparent sticker labeling without foam, adhesive sticker labeling without wrinkle;
- Widely used and multi-function with high flexibility;
- Date/code printer is for optional;
- Transparent label sensor is for optional;
- Can be customized according to your requirement.

Technical Info

Voltage	220V, 50Hz
Power	2KW
Labeling Speed	20-120bottles/min, 150-200bottles/min
Labeling Accuracy	±1mm
Printer to use air	5 kg/cm ²
Object Size	30-200 mm(H),30-100 mm(W)
Label Size	25-300 mm(L),20-180 mm(W)
Roll Size	76 mm(Inside),380 mm(Outside)
Dimension	3048(L)×1500(W)×1600(H) mm
