

JT-210F Manual Sealing Automatic Labeling Machine

Manual sealing automatic labeling machine

Scope of application:

This machine is suitable for sealing and labeling instructions, as well as folding and labeling lightweight products

The equipment is a specialized model

The equipment is designed for automatic feeding

Characteristic:

1. PLC combined with human-machine interface, intuitive operation, simple and clear
2. The entire machine is made of stainless steel and aluminum alloy, which are rust free and comply with GMP requirements.
3. This machine has automatic feeding, alignment, feeding, bonding, folding, and label smoothing functions
4. The position of the label can be adjusted.
5. Can be connected to the rear automatic conveyor line.
6. Various special models can be customized according to customer requirements.

Technical Specifications:

1. Power supply: 110V/220V, 50/60Hz, 450W
2. Labeling speed: 0-25 meters/minute
3. Labeling accuracy: ± 1 mm (excluding errors between the object being labeled and the label itself)
4. Product width: 80-200mm, (special sizes can be customized)
5. Label width: 10-40mm (special sizes can be customized for specific models)
6. Label roll diameter: inner diameter of paper roll 76mm, outer diameter (maximum) 360mm
7. Machine dimensions: length * width * height=1800 * 1200 * 1550mm
