

## PLM-120 Automatic Round Bottle Labeling Machine

This machine is suitable for round labeling or semicircular labeling of round bottles in the food, pharmaceutical, chemical, stationery, hardware and other industries.

### Features

1. The labeling between the bottles is simple and the adjustment is convenient.
2. The automatic round bottle labeling machine design adopts Taiwan PLC, Swiss imported chips, double stepper motor drive, and the encoder automatically tracks the speed to realize the synchronization of the product and the labeling.
3. The automatic round bottle labeling machine has high labeling accuracy, and can achieve labeling accuracy of 1.0mm.

### Technical parameters

Model	PLM-120
Voltage	AC220V 50Hz
Power	500W
Speed	20-60 pcs/min
Labeling precision	1mm
Product size	Dia: 30-100mm Height: 40-200mm
Label size	L: 25-300mm W: 25-120mm
Label inner dia	76mm
Label outer dia	300mm
Machine size	1220x750x800mm
NT	76kg
