

Automatic Tomato Paste Ketchup Packet Sachet Hot Sauce Bagged Shampoo Filling Sealing Machine VFFS Packaging Machine

This VFFS packaging machine is designed for filling thick paste in food, cosmetics, daily chemical and other industries, like bagged sauce, disposable shampoo / lotion, bagged water/milk.

Main Feature

- ▶ Driven by servo motor control, this quantitative filling machine can set filling volume more intuitively, and the filling accuracy will be more accurately.
- ▶ The bag sealing type (back side sealing/ three sides sealing/ four sides sealing) can be customized as production need
- ▶ Can be customized for other filling volume, this machine works stably and has high working capacity.

When filling food sauce:

- ▶ The part of the machine body in contact with the material can be customized with food-grade stainless steel, this ensures the production quality
- ▶ Extra heating and mixing function can be realized so that tomato paste, mayonnaise, peanut butter, honey can be mixed evenly before filling work.

Parameter

- Voltage: 110/220V 50-60HZ 2KW
- Filling range: 1-10ml(Can be customized)
- Sealing type: Back side sealing(Can be customized)
- Filling pump: Rotor pump
- Packaging speed: 30-60bags/min
- Bag size: 20-145mm(L)*20-110mm(W)
- Packaging size: About 1070*780*1740mm
- Packaging weight: About 336kg
