

AS-2000 Semi Automatic Liquid Sachet Packaging Machine

The Automatic Liquid Sachet Packaging Machine is designed to efficiently pack small volumes of liquid products into single-use sachets. Ideal for packaging items like soy sauce, vinegar, beverages, shampoo, lotion, and other fluid materials, it offers a compact and fully automated solution for food, cosmetic, and daily chemical industries.

This machine automatically performs film forming, liquid filling, sealing, and cutting—streamlining the entire packaging process and greatly improving production efficiency. It supports a variety of liquid viscosities, making it highly versatile for different applications.

Constructed from stainless steel, the machine meets food-grade hygiene standards and ensures long-term durability. The compact structure saves floor space, making it especially suitable for small and medium production lines.

With easy-to-use controls and reliable sealing performance, the automatic liquid sachet packaging machine helps businesses produce consistent, professionally packed sachets that meet market demands.

Technical Parameters

Model	AS-2000
Bag Length(mm)	50-250
Bag Width(mm)	40-175
Film Width(mm)	100-380
Packing capacity(ml)	200-1000
Capacity(bags/h)	1100-1300
Power(Kw)	220V,380v/50 Hz 2.5Kw
Overall Size (mm)	1050x850x2050
Weight (KGS)	380
