

JS-G1 Automatic Plastic PET Jar Bottle Chewing Gun Gummy Caramel Candy Filling Machine

The automatic granule bottle filling machines are suitable for packaging various granular materials in the food, agriculture, daily chemical and other industries, such as dried fruits, nuts, beans, seeds, oatmeal, cereals, potato chips, candy, onion rings, frozen foods, pet food, pickles, etc.

Feature

1. The overall appearance material is mainly made of stainless steel 304, which is corrosion-resistant, easy to clean and maintain, and more durable.
2. It adopts a multi-station turntable design to buffer and synchronize vibration during unloading, effectively increasing the filling speed and preventing material clogging.
3. Equipped with multiple electric eye sensors, it can achieve no filling without bottles and no filling without materials.
4. If you need to change the height of the jar, you don't need to change accessories, just shake the hand wheel, which has a wider range of applications.

Specification

Filling Speed	30-40 bottles/min
Filling Range	50-2000g (customizable)
Bottle Height	50-200mm
Bottle Diameter	Φ30-130mm
Machine Size	2000(L)*880(W)*1600(H)mm
Voltage (Single Host)	220V, 50/60HZ
Power (Single Host)	1Kw
Machine Weight (Single Host)	200KG
