

RY-XK-470 Automatic Sleeve Sealing and Shrink Wrapping Machine for Can with CE Certification

Automatic sleeve sealing and shrink wrapping machine for can with CE certification divide two parts, wrapping machine and shrinking machine.

Application:

Shrink pack boxes in multi-row and multi-layer such as medicine boxes, cosmetic boxes, toothpaste boxes, stationary boxes. It can be connected and work with cartoning machine.

Technical parameters

Type	RY-XK-470
Material size (L) mm	175-470
Material size (M) mm	60-160
Material size (H) mm	70-140
Wrapping speed (PCS/min)	8-20
control temperature	0-500
Max. cutting film size	600
Power(KW)	1.2
External gas source (kg/cm ²)	6-8
Weight (kg)	800
Overall size (L*W*H) mm	1000*1000*1800 (machine standard width after installation is about 2500)
Out-proportioning size requirement	The height of High shrinkage furnace landing 890
	The height of transmission rack landing 800
