KDM-300 Semi-Automatic Cartoning Machine

The Kwang Dah Model Semi-Automatic Cartoning Machine (KDM-300) intermittent vertical cartoner automatically open/fold cartons for manual insertion of container, then automatically closes botton flap.

The KDM-300 can handle wide range of cartoners to accept various containers, bottles, blister packs, pouches, sachets or tube.

Features:

- Small footprint is ideal for space sensitive operations.
- User friendly design requires only one operature.
- Tooling change-over can be completed in 20 minutes or less.
- Simplified engineering design allows for ease of maintenance.
- Constructed with materials that meet cG.M.P.
- Safety guarding.
- Speed regulation by means of a inverter.
- Using vacuum pump to accurate open carton.
- High precision index provide of accurate intermittent operation station.
- Torque limiter - preventing starwheel from colliding.

Technical data:

Capacity		MAX 60 cartons/min	
Compressed Air	Consumption	5 kg/cm^2	5 L/min
Power Supply		AC 220V 60/50Hz Single Phase	
Power Consumption		0.6 KW	
Machine Wejght		350 kgs	
Gross Weight		430 kgs	
Packing Size		(L)158cmX(W)140cmX(H)135cm
