

Double Ribbon blender DP series

The horizontal screw belt mixer is a new type, high efficiency mixing equipment, are widely used in food and chemical industry.

Features:

- Horizontal tube body, inner & outer dual screw with special structure, running stable, best quality, low noise, long life, convenient installation, widely usage, with many kind of mixer structure, multiple functions.
- Whole machine except for motor is made of stainless steel.
- With warm sheet, bearing great pressure, make easy-forming material into difficult forming after filling steam.
- For different mixing requirements, use different screw structure, rapid & thorough mixing.
- There is a split window in the body for cleaning.
- Load coefficient large, covering small surface.

Technical Parameters:

Model		DP200	DP300	DP500	DP1000
Effective Volume	liters	200L	300L	500L	1000L
	Cubic feet	7.1	10.6	17.7	35.3
All Volume		280L	420L	710L	1420L
Blend time		0-30 min	0-30 min	0-30 min	0-30 min
Trough: L x W x H(mm)		900x560x600	1000x620x700	1200x800x740	1500x900x1180
Overall Dimension(m)		1.3x0.68x1.4	1.4x0.78x1.53	1.64x0.94x1.8	1.96x1.13x2.0
Total Power		1.5 KW	2.2 KW	3 KW	5.5 KW
Power Supply		3 Phase 208-415V 50/60HZ
