

## *DXD-KS2 automatic micro measuring dual bags packing machine (granules)*

### **Applicable Scope:**

1. Be suitable for all kinds of industries like food; medicine; cosmetic; industrial products.
2. This kind of machine, for products that can be packed are like: small granules, like sugar, salt, pepper, instant drinks granule.etc, small solid products.

### **Full Features:**

- 1) Be able to weight, bag-making, filling, sealing, cutting, lot number, cutting easy tearing notch etc. automatically.
- 2) It has color control system which can get the complete trade mark design (photo electricity system to control the pattern on sachet to complete).

- 3) The machine fix stepper motor controller, its advantage is precise, needless to adjust other parts
- 4) Intelligent temperature control by temperature controller to make heat balance better. Use bilingual display screen control system and stainless steel cabinet.
- 5) Fine packaging performance, low noise, clear sealing texture and strong sealing performance.
- 6) Hot code number by high temperature pressing code
- 7) Micro-volume cup measuring mode breaks measuring range of traditional measuring cup, be able to packing salt or pepper up to 0.1g
- 8) Operation manual and warranty card will be delivered to the clients with machine
- 11) If the granular diameter is the same, the machine has very high accuracy.
- 12) Optional machine: black ink code machine (it can print manufacture date, expiry date, and lot number).It is optional, if needs, should pay.

#### Technical Parameter:

Model	DXD-KS2
Machine Speed	70 - 80 /min ; That is 70-80 packs salt and 70-80 packs pepper
Bag Size	(Length)30-100 mm (Width) 55-100 mm
Film Width	60mm-180mm
Film Material	Laminated or Composite Film that can be heat sealed ,like Aluminum foil/paper-PE film / Tea-leaf filtering paper
Net weight	300KG
G.W	350KG
Bag type	4 Sides Sealing
Notch	Flat Notch
Voltage	AC220V Single-phase 50HZ or 380V/50HZ three phase
Total Power	1.3 KW
Measuring Range	0.1- 3 grams
Control System	Taiwan Delta PLC control system
Measuring mode	Volume Cup (special micro volume cup )
Machine material	Stainless Steel 304(SS304)
Machine Dimension	Length: 900* Width:700 * Height:2100mm
