

HD-PVF Powder Filling Machine (Vacuum Type)

HDPVF Series, Automatic Micro Dosing powder filling machine doses antibiotic powders into vials and completes with rubber stopper. It is a vacuum type, ensuring small volume dosing between 0.2g to 5.0g precisely. All machine parts are adjustable in height to cover different sizes of vials.

Specification of HD-PVF

<i>HD-PVF Series</i>	HDPVF-60
Size (Vial)	7~10ml
Max Output /Uph	6000~12000
Filling Range	0.2~5g
Air Consumption	0.6 Mpa (12m ³ /h)
Power	1.1 Kw
Net Weight	1,200kg
Dimension	3140x970x1600mm
