

YG-2 Automatic High-speed Capping Machine

- Accomplish Cap ordering, cap adding, cap pressing automatically.
 - According to customers different cap, design specialized capping way.
 - Continuous capping at high speed.
 - Protect caps from harm
- Automatically adjust cap-feeding and cap-ordering state, reducing the friction of the collision between the caps and not damage the cap.
- Detection function

Technical Parameter:

Applicable	Common caps, protective ring caps, double caps, Spring caps etc.
Capacity	50-150 bottles/minute
Power supply	220V/50Hz 0.4kw
Air supply	0.6Mpa, 10l/min
Size	850*800*1360mm
Weight	340kg
