

## *Chain Driving Adjustable Box Sealing Machine KD-F02*

The machine adopt oversea developed gluing technology which replace the normal point gluing, perfect sealing and tear effect. The machine has its own bravo appearance, simple and convenient usage and low failure rate. The custom parts of the whole machine are protected by patent.

### **Product function and structure feature:**

- a. Adjustable, the machine can finish variety box sizes, L:100-320mm W:30-250 H:25-100mm.
- b. No need change any components, just turn the adjusting handles, 5 minutes only to adjust the machine to seal for another size.
- c. Adopting the latest technology from United kingdom, continuous three shift operation design.
- d. The material of frame and guard plate is stainless steel.
- e. Electronic protector device, if overlapping or other accident happen, the system will stop automatically.
- f. Plexiglas guard door, and all kinds of color selectable.
- g. Tailstock and frame gomphosis, compact structure and save space.
- h. Glue tank controlled by constant temperature system, and the temperature can be setted by customer.
- i. The speed of out-feed finished box can be adjusted by frequency conversion randomly.

**Technical parameter:**

<b>Model</b>	<b>KD-F02</b>
Capacity	50-70 boxes/min
Voltage	0.37KW+1.6KW
Power	AC220v 50HZ
Weight	400kg
Dimension	L4500* W910* H1300mm
Applicable size	L:130-300mm W:45-250 H:35-100mm
Material	Hot melt glue
