

Single Head Automatic Filling Machine TAFM-1

Single head Automatic plastic bottle 10-250ml pneumatic liquid cream filling machine has 1 filling nozzle. This Machine adopts serve ball-screw system to drive the piston cylinder. It's widely used in Food, Chemical, Medical, Cosmetics, Agrochemical industry, applicable for filling liquid, especially for high viscosity material and foamy liquid, such as: Oil, Sauce, Ketchup, Honey, Shampoo, Lotion Lubricant oil, etc.

Description

1. TSFM01 pneumatic filling machines are controlled by compressed air, so they are suitable in explosion-resistant or moist environments;
2. Because of the pneumatic controls and mechanical positioning, this bottle filling machine has a high filling accuracy;
3. The filling machine filling volume is adjusted by PLC
4. When you need to stop the semi automatic liquid filling machine in an emergency, push the URGENT button;
Self suction liquid filling machine piston will go back to its initial location and the filling will be stopped immediately;
5. Automatic plastic bottle 10-250ml pneumatic liquid cream filling machine for you to choose- Manual and Automatic;
6. Automatic plastic bottle 10-250ml pneumatic filling machine filling precision: $\pm 1\%$.

Products Parameters

Filling Volume	TAFM-1
Filling speed	25-30 bottles/min
Filling precision	±1%
Cylinder specification	10-250ml,50-500ml,100-1000ml,250-2500ml
Working pressure	5-7kg/m ³
Net weight	250kg
Dimension	1400x600x1500mm
