

## Automatic Linear Capping Machine with Feeding Plate MTXG-300

### Application:

- Used for Linear Packaging line for all kinds of Screw Caps, Theft Proof Caps, automatically Feeding Caps and Capping
- Automatically Linear Capping Pump Caps, but need Manual Feeding

### Features:

- Automatic Feeding with Feeding Plate and Feeding Track
- Automatic Linear Capping for all kinds of caps
- High Speed Capping

### Technical Parameters:

production capacity	1800-9000 BPH (related to product size)
capping qualified rate	≥ 99%
bottle size applicable	35 ≤ dia ≤ 140mm, 30mm ≤ height ≤ 300mm
cap applicable	12 ≤ dia ≤ 70mm
power supply	220V 50Hz, 2.0KW
machine size	2000*1000*1800mm <sup>3</sup>
weight	400KG
