

## *F100B-R Automatic Three Edge Small Sachet Sealing Packing Machine*

F100B-R Automatic Three Edge Small Sachet Sealing Packing Machine is specially designed for powder material auto-weighing filling and bag forming sealing. Widely applied in the market of chemical powder, food powder, additives, this machine unit has been accepted by customers for a long time.

### **Features:**

- The bag making series adopts stepper motor subdivision technology, the bag making accuracy is high, the error is less than 1 millimeters, the two way controlled thermal sealing mechanism, the temperature control is more precise, the sealing quality is higher, the packing material is wider.
- The microcomputer bag long controller can set the length of the bag at any time without changing the parts, and the prefabricated technical number can be prefabricated, and the packing speed and the length of the bag are displayed.

**Specifications:**

<b>Machine Model:</b>	<b>F100B-R</b>
