

High Capacity Pouch Packing Machine XY-60CJ

Xinyue series packing unit is mainly for liquid or medium viscosity paste filling requirements and design, injection pump adopts drip tight, drawing design, high filling precision, filling volume and filling speed can be adjusted at the same time.

Automatic sauce packing machine scope of application:

Laundry detergent, detergent, stuffing, sauces, reagent, pesticide emulsion, dyes, pigments and other liquid or medium viscosity paste objects.

This machine adopts correcting system controlled by microcomputer, owing to a response signal is and set pass through microcomputer it can accomplish whole set to synchronization, sack length, position fixing, voluntarily follow the tracks of light-mark and voluntarily diagnose trouble and show to screen.

This machine can automatically complete a series of actions, such as bag making, filling, counting and sealing.

Machine characteristics:

1. More than 20 languages can be chose, parameter and function setting convenient with touch screen.
2. PLC intelligent control system, operation more steady without stopping machine.
3. Frequency converter control and servo motor, suit for packing several different shape material in one bag.
4. Self-diagnose function, all the fault will be display on the screen, easy to maintenance.
5. High sensitivity photoelectric eye color tracing, number input of bag size, cutting position accurate.
6. Temperature independent PLC control, more suitable for packing different materials.
7. Positioned stop function, without sticking knife or wasting film.
8. Simple driving system, reliable working, convenient maintenance.
9. All control is realized through software, easy for function adjusting and technical updating.

Technical data:

SPECIFICATIONS FOR AUTOMATIC SAUCE PACKING MACHINE XY-60CJ		
Packing specification	Bag size range	Width 30-150mm, Length 30-180mm
	Packing weight	3-300ml depend on products density
	Packing speed	30-60 bags/min
	Main performance parameters	Total power
Main specification	Touch Screen	Yes
	Photoelectricity Sensor	Yes
	Date Robbon Printer	Yes
Machine size	Machine Dimensions	L:900 W:700 H:1700mm
	Machine Weight	400kgs
