

M-Series

LABELER

The only thing small about this machine is its size.

The EPI M-Series is a compact and simple solution to complex labeling. It's a smaller, smarter machine that is self-calibrating, flexible enough to customize on the fly, and simple enough to set up in a few minutes. The M-Series Labeling Platform is optimized for direct apply, merge and wipe-on applications. Its ultra compact drive system allows for mounting in places too small for the competition. The modular design of the unwind and rewind spools allows for a multitude of packaging options. The M-Series is easily configurable, for even the most unusual applications. Employees can be trained in minutes to operate a durable machine that will be part of your packaging process for decades.

FEATURES AND BENEFITS

- Dependable, Reliable, and Versatile
- Small and More Flexible
- Automatic Calibration
- Color Touch Screen HMI
- Speed Matching Encoder Included
- Widths up to 12"
- Speed up to 6000 IPM
- Configurable Unwind/Rewind Combinations
- Spring Loaded Drive System
- 30 Second Label Changes
- Constructed Entirely of Non-Corrosive Materials
- Various Options to Suit Your Needs

M-SERIES LABELER

TYPICAL PRODUCT SPECS

Label Size: 1"x1" to 5"x12".

Smaller/larger size optional

Label Supply: 12" OD on a 3" Core.

Larger size optional

Electrical: 2A @ 120VAC, 60HZ.

Different supply voltage optional

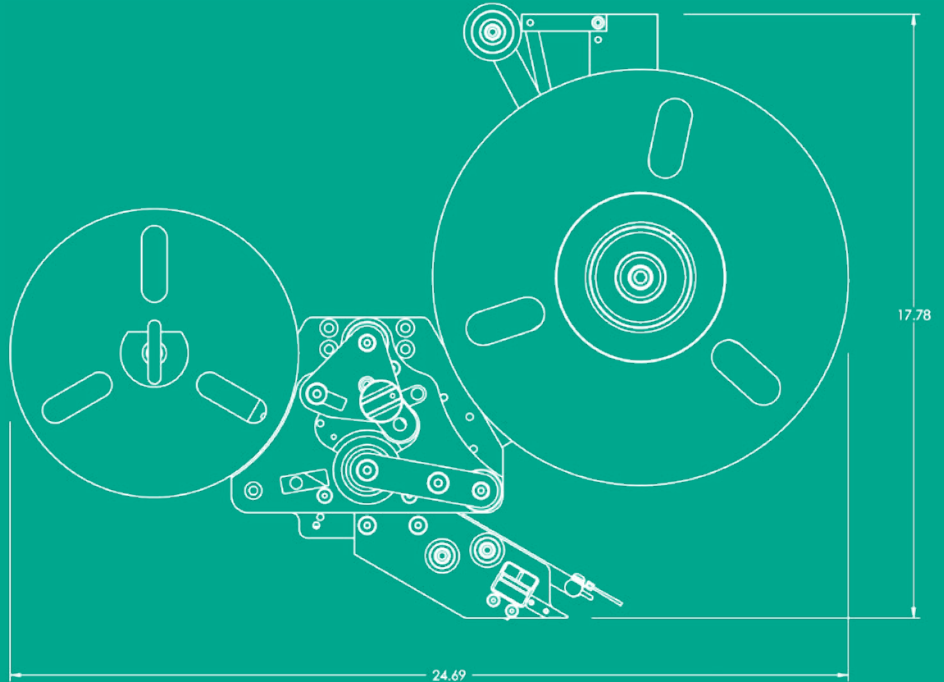

Speed: Variable up to 100 FPM.

Higher speeds optional

OPTIONS

- 16" Label Supply
- Increased Label Width
- Low Label Supply Warning with Auto Shut-Off Feature and Beacon Light
- Different Supply Voltage
- Clear Label Sensor Package
- Higher Speed up to 6000 in./min.

Product Sensor Included

Measurements in inches.

WHY EPI?

For over 35 years EPI Labelers have been designed and engineered for reliability and ease of use. We take the time to understand each application and listen to our customers needs. Let us show you how precise thinking and simple design can help you.

RELIABLE

EPI Labelers are built to stand up to the daily use and harsh environments that come with the territory. Enclosed direct drive technology along with corrosion resistant material allows our labelers to work in dusty, wet and cold packaging operations with a minimum amount of maintenance required. Your operators and mechanics will appreciate EPI Labelers ease of set up and use.

VERSATILE

Sure, EPI Labelers are easy to set up and operate, but the versatility that is engineered into all our equipment allows you to use our labelers in a variety of applications. Whether your job calls for a non-contact vacuum/blow, tamp or two panel application we can configure our labelers to meet your needs.

QUICK AND EASY SETUP

Our customers tell us that EPI Labelers give them the ease of use that they have not experienced with other labeler equipment. The cantilevered design lends itself to easy threading and the simple mechanical adjustments needed to change label size make EPI Labelers a favorite of mechanics and operators everywhere.
