

## V Type Mixer VH-series

V Type Mixer is primarily used for mixing dry powder, granulate or crystal products in Chemical, Food, Pharmaceutical and other industries. By rotating the V shaped vessel, the materials move in convective motion to get a quick and homogenous blending.

### Features:

- ◇ Available in SS304, SS316, as per customer requirement
- ◇ Easy for loading and unloading
- ◇ Easy to operate, clean and maintain
- ◇ No dead corner
- ◇ Comply with GMP Standard.

### Technical Specifications:

Model	Volume(L)	Working Capacity(L)	Vessel Speed (r/min)	Motor Power (KW)	Machine Dimensions(mm)
VH-20	20	8	20	0.75	1050×400×800
VH-30	30	12	20	1.1	1300×380×1100
VH-40	40	16	20	1.1	1420×540×1150
VH-50	50	20	20	1.5	1400×480×1200
VH-100	100	40	16	1.5	1570×710×1400
VH-200	200	80	15	2.2	2010×850×1440
VH-300	300	120	15	2.2	2220×900×1470
VH-500	500	200	13	2.2	2300×915×2010
VH-1000	1000	400	10	3	2800×1000×2900
