

High Quality DLL-240A Double Aluminum Strip Packaging Machine

This aluminum strip packaging machine is suitable for automatic double aluminum foil packaging for tablets and pills in medical medicine, chemical industry, foods etc.

Features

1. This aluminum foil packaging machine adopts frequency speed regulation, adjustable stroke and equipped with a vibrating material feeder with a photoelectric monitoring device, automatic account.
2. This automatic blister packing machine could automatically finish to filling, heat sealing, line cutting, embossing and cutting.
3. It adopts vibrating feeding materials, eliminating pieces, counting. Vertical and horizontal slitting, cutting waste material, automatic finishing batch number, printed etc.
4. The machine adopt PLC control, inverter speed adjustment. HMI touch screen display, to realize easy adjustment for cutting speed and running stroke

Technical Parameter:

Model	DLL-240A
Speed of drum	7-15rpm
Capacity	4-12pics/h
Max Packaging Width	250 mm
PVC for Medicine	0.05-0.1*168 0.05-0.1*168mm
AL-plsc Combined Film	0.08*168 0.08*168mm
Hole diameter of Reel	40-45mm
Main Motor	1.55KW
Air pressure	0.4Mpa, air flow \geq 0.1m ³ /min
Electrothermal Power	1kw*2
Dimensions	1800*900*1850 (L*W*H) mm
Weight	850kg
