Page Labeling Machine

Automatic self-adhesive pager labeling machine designed for automatic material labeling of flat materials. It can meet the labeling of various cards, PE bags, anti-static bags and paper-like items, and is suitable for labeling of various unformed cartons, brochures, cards, clothing tags, etc.

Technical Parameters:

- Label specifications: length 10~250mm; width 20~150mm
- Product specifications: length 40~380mm; width 40~350mm; thickness 0.1~3mm
- Marked outer diameter: Φ280mm;
- Marking inner diameter: Φ76mm
- Labeling speed: 10~100 sheets/minute
- Labeling accuracy: ±1mm
- Air pressure: 0.6~0.8Mpa
- Power: 850w (step), 1150w (servo)
- Voltage: 220V 50Hz
