

C&C300A1 Automatic Capsule Separating Machine

This is the world first machine designed to separate capsules and re-use powder, granules, pellets, or micro-tablets which is built to replace the traditional way of milling, sieving and retrieving powder. Our machine is first of its kind to separate and retrieve round pellets and micro-tablets. It is ergonomically designed; suitable for all capsule sizes with applicable change parts; easy to clean and maintain; user-friendly and meet the cGMP Standard in the industry. It is excellent machine to own by any capsule manufacturing plants or R&D laboratories, where powder are extremely expensive and cGMP is strictly required.
