

Electric Type Shrinking Machine (Top Bottle) – CE-1500/SS-H

- Designed for bottle shrink sleeve label packaging design, Swiss ‘ hot air gun, heat only part of the bottle, heat stability, air transport uniform, low-energy, long life.
- The machine adopts not show steel or high-strength aluminum alloy, high-quality surface treatment, durable.
- Contraction temperature and transmission speed are adjustable to ensure the best packing effects.
- Stainless steel top plate chain conveyors, to ensure the smooth operation of the packaging for easy connection to the production line, improve production efficiency. belt-free design, high adjustable furnace, designed for supporting customer’s existing conveyor, production line design.

Technical Parameter:

Model	CE-1500/SS-H
Conveyor speed	5-30m/min
Cover diameter	25-80mm
Maximum bottle diameter	100mm
Bottle height	50-400 (Adjustable)
Power	220v, Single phase, 3.5kw
Dimension	1500 x 460 x 1435mm
