

HD-VFW Vial Filling Machine and Stopping (Servo Type)

HD-VFW Series are monoblock vials filling and sealing machine with continuous motion of positive monoblock transport system and suitable for filling liquid solution into cylindrical vials, rubber stopper insertion and aluminum sealing. HD-VFW Series are very compact and carry out multifunctional performance from filling to sealing in a single rotation, ensuring maximum production efficiency and safety.

Specification of HD-VFW

HD-VFW Series	HDVFW-6	HDVFW-8	HDVFW-10
Size (Vial)	1~500ml	1-500ml	1-500ml
Max Output /Uph	3000~9000	4800~13200	6000~18000
Filling Heads	5	8	10
Plugging Heads	12	24	24
Net Weight	1300kg	1300kg	3000kg
Dimension	3360x1780x1590	3360x1780x1590	3360x1780x1590
