

XT-FXZ-6 Full-automatic Cap-screwing Machine

XT-FXZ-6 full-automatic cap-screwing machine adopts vibrating cap-arranging and draw-to-take cap-feeding design. Caps will be nested into cap-screwing head firstly and then screwed onto containers, ensuring qualified rate. It is applicable to plastic threaded caps, aluminum caps and press-in caps with replacing different cap screwing mechanism. Design of this machine has features of flexible replace ability and simple operation, which is easy to replace different containers. It can be used independently or matched to production line. General chemical industry, medicine, food, cosmetic, cleaning supplies, etc. is applicable.

Main parameters

Applicable bottle height	100-250mm
Applicable bottle diameter	Φ40-90mm
Bottle cap specifications	Φ25-50mm
Production capacity	>50 (bottles/ min)
Air source pressure	0.5~0.7 MPa
Power supply	220V,50HZ
Output power	3KW
Weight	600kg (About)
Boundary size	2100×1500×2000mm
