

## Automatic Shrinkable Label Inserting Machine XYL-600S

### Description:

- Machine constructed by stainless steel. Comply with safety regulation. Simplex machine structure ensures convenient installation.
- Modular design for quick changeover.
- Interface touch controller for user-friendly operation.
- To change new product to another, it takes only minor adjustment.
- Multi-Axis Controller and synchronous design to reach the high speed accurately.
- The design is follow to the production line requirements for providing the suitable label feeding system.
- Machine could be special designed according to label length max to 300mm above.

### Specification:

| Model                      | XYL-600S                       |
|----------------------------|--------------------------------|
| Power Source               | 3P / 220V ~ 415V               |
| Production Rate            | 600 BPM ( label length 180 mm) |
| Range of bottle diameter   | Ø25 ~ Ø130                     |
| Label insertion length     | 25 mm ~ 220 mm                 |
| Range of label thickness   | 0.035 ~ 0.08 mm                |
| Material                   | PVC, PET, OPS                  |
| Total Power                | 12 KW                          |
| Machine dimensions (L×W×H) | 1190 × 1250 × 2100 mm          |
