Double-Sides Self-Adhesive Sticker Labeling Machine PSV-S202

PSV-S202 double sides automatic sticker labeling machine can be widely used in water bottle, beverage bottle, cosmetic bottle, daily chemical industry, motor oil bottle, plastic yogurt or food cups etc. It can meet the labeling requirement of different shape of various products.

PACKSOUL Automatic sticker labeling system consists of main structure, product transmission belt with guide adjustment, label dispensing unit, label pressing system, motor, sensor, mains on/off, emergency switch, PLC & HMI.

Features:

- Suitable to apply accurate labels on double sides (Front & Back) of round/oval/square/ rectangle containers made of PET, HDPE, Glass etc..
- Labeling with high positioning accuracy, stability, labeling smooth, no wrinkle, no bubble.
- Widely used and multi-function with high flexibility.
- Equipment mainly stainless steel and high alloy material, the overall structure of a solid, beautiful.

Technical Parameter:

Model	PSV-S202
Labeling Speed	6000 pcs/hour
Labeling Accuracy	±1mm
Container Size	Diameter Φ30-110mm, Height 120-400mm (Can be customized if exceed)
Label Size	Length : 10-300mm Height: 10-200mm (Can be customized if exceed)
Label Roll Diameter	Inner φ76mm ; Outer φ400mm
Machine Size	3000L*1800W*2000H (mm)
Working Table Height	1150±50 mm(can be customized)
Power	3KW
Voltage	AC 3φ 220V/50HZ
Air Pressure	0.6 Mpa
