

Tabletop Wrap Around and Top Labeler NLR-130 + NLT-110

NLR-130 A new generation of tabletop semi-automatic labeler. It is composed by two models - top labeler with corner wrap device and spindle wrap around labeler. It is ideal for companies requiring flat labeling and cylinder labeling at one product. Only one operator and one tabletop labeler with brilliant combination could be a multifunctional labeler as automatic ones.

Features:

1. An innovative combination of top labeling, corner wrap labeling , and fully wrap round bottle labeling.
2. Only one operator can achieve multi labeling requirements at one time.
3. Available for top labeling and round bottle labeling on different size of cylindrical container.
4. Quick product and label changeover: it's extremely user-friendly system, all adjustments can be done without tool to speed up the downtime.
5. Labeling height can be adjusted by numeric hand wheel.
6. Labeling angle can be adjusted by X-Y axes.
7. Automatic label length detection and electronic sensor positioning.
8. Precise pneumatic positioning device during labeling to fix product.
9. Able to mount date coder and bottle collection tray.
10. Made of stainless steel and high grade anodized aluminum.

Specification:

Labeling speed: 15~50 bottles/min

Accuracy: ± 1 mm

Bottle size: Dia: 20~100 mm /Height: 25 ~80mm

Label size: (W)10~100mm (L) 20~300mm

Label roll: ID 75mm, OD< 300mm

Power supply: 110V or 220V, 50/ 60 Hz

Option Accessories:

Date Coder

Bottle collection tray
