

Vacuum Cosmetic Homogenizer Emulsifier RHJ- KB-series

Product Description

1. Vacuum Homogenizer Emulsifier

Lifting emulsifier, including emulsifying pot , operating platform, oil and water pot , oil and water pot and controller; Emulsifying pot device including emulsifying pot, emulsifying pot rack and emulsifying pot cover fixed plate, emulsifying pot set on mixing mechanism, dumping, cooling circulation mechanism, vacuum institutions and emulsifying pot cover lifting mechanism, mixing, dumping, cooling cycle machine, vacuum institutions and emulsifying pot cover the controlled end of the lifting mechanism is connected to the output of the controller.

2. Working capacity from 10L up to 200L;

Vacuum Homogenizer Emulsifier For Face Body Cream Ointment

3. Cosmetic Homogenizer stair Anti-skip Stainless steel platform for operator safety

4. Suitable for high viscosity material of 10,000~120,000cps viscosity;

5. Contra mixing system of fixed impellers with holes and wall scraper

6. Perfect particle size of 2 micrometers and evenly distributed;

7. Vacuum Mixer Machine Vacuum function defoaming can make the materials meet the requirement of being aseptic.

8. SS304/316 material. Long service life and import brand component.

9. Vacuum Mixer Homogenizer Vacuum system to take out the air bubbles during mixing and to transfer the ingredients.

10. Adopts 3 layers double jacket design, with heating and cooling function.

11. The stirring paddle with scraper, so that the products attached on the inner wall can be scraped off and making the products mixing well.

Technical parameter:

| Model | Capacity (L) | Main pot power (kw) | Oil water pot power (kw) | Hydraulic lift power (kw) | Vacuum pump power | Total power(kw) |
|-------|--------------|---------------------|--------------------------|---------------------------|-------------------|-----------------|
| | | | | | | |

| | Main tank | Water tank | Oil tank | Mixing motor | Homogenizer motor | Steam heating | electrical heating | | | |
|---|-----------|------------|----------|--------------|-------------------|---------------|--------------------|------|----|----|
| RHJ- KB10L | 10L | 8 | 5 | 0.37 | 1.1 | 0.15 | 0.55 | 0.55 | 3 | 6 |
| RHJ-KB20L | 20L | 18 | 10 | 0.55 | 1.5 | 0.15 | 0.75 | 0.75 | 3 | 6 |
| RHJ-KB30L | 30L | 25 | 15 | 0.75 | 2.2 | 0.15 | 0.75 | 0.75 | 9 | 18 |
| RHJ-KB50L | 50L | 40 | 25 | 0.75 | 3-7.5 | 0.75 | 1.1 | 1.5 | 13 | 30 |
| RHJ-KB100L | 100L | 80 | 50 | 1.5 | 4-7.5 | 1.1 | 1.1 | 1.5 | 14 | 32 |
| RHJ-KB200L | 200L | 170 | 100 | 3 | 5.5-11 | 1.5 | 1.5 | 2.2 | 15 | 40 |
| <i>Remark: The machine dimension motor power can be customized according customers workshop</i> | | | | | | | | | | |
