

Automatic Linear Capping Machine for Plastic Bottle MTCP-300

Application

- Used for Linear Packaging line for all kinds of Screw Caps, Theft Proof Caps, automatically Feeding Caps and Capping
- Automatically Linear Capping Pump Caps, but need Manual Feeding

Features

- New designed capping machine with servo motor capping system. High capping speed
- Automatic Feeding Caps with Feeding Plate and Feeding Track or By Hand.
- Linear type tracking capping machine, improve capping speed.
- The capping machine is good for screw cap and pump cap.
- We can customize the machine according to customers' requirements.

Parameter

Speed	2000-6000 bph (customizable)
Capping accuracy	>99%
Caps applicable	Screw Caps, pump caps
Caps' diameter range	25-40mm (can be customized)
Power supply	220V 50hz 2kw
Air supply	0.6MPa
Bottle applicable	35<diameter<140mm; 30<height<300
Caps feeding device	Lifter, vibration plate or by hand
Feature	High speed, PLC, touch screen, servo motor
