

CMA(H) Series PET Automatic Stretch Blow Molding Machine

The CMA (H) series stretch blow molding machines produce hot filling bottles for products such as fruit juices, isotonic drinks and RTD tea. These machines have a unique design according to the effect on the PET material. Multiple blowing steps reduce PET residual stress.

Hot filling PET bottles are available for high temperatures ranging from 82°C to 95°C without deformation. This is an incredible success in the hot filling beverage domain.

Feature:

- Stainless steel mold.
- Molds with oil heating system instead of water cooling system.
- Two independent flow circuits for mold bottom and sides.

Specifications:

Model		CMA-2H	CMA-4H
Max. Capacity	ml	1000	1000
Carry Pitch	mm	114.3	114.3
Max. Neck Diameter	mm	30	30
Cavity	no.	2	4
Output	BPH	960 (1000ml)	1920 (1000ml)
