

High Density Liquid Filing And Sealing Machine GT6-1(N),GT12-4(N),GT18-6

High Density Liquid Filing And Sealing Machine(25-210 cans/min)

This machine designs for high-density liquid filling.It equipped 12 rotated filling station with the capacity of up to 1000 g high-density liquid filling.By adopting the Swiss advanced assembling machinery standardization , this machine was designed bu aero-dynamic control sealing with can bottle contactless method,and equipped by touchable screen control pad.This machine is the ideal device for firms like tomato sauce,honey and milk product-wise factory.

Technical Parameter

Model:	GT6-1(N)	GT12-4(N)	GT18-6
Capacity	25-40cans/min	80-180cans/min	80-210cans/min
Can Dia	Φ99mm-153mm	Φ52.5mm-99mm	Φ52.5mm-99mm
Can Height	H89-245mm	H39-133mm	H39-133mm
Air Pressure	0.5-0.6Mpa	0.5-0.6Mpa	0.5-0.6Mpa
Power	380v 50hz 3KW	380v 50hz 5KW	380v 50hz 5KW
Overall size	2380*1450*2250mm	3500*1720*2250mm	3700*1920*2250mm
Weight	3500kgs	4000kgs	5000kgs
