

RXC-650P-III Full Automatic Inverted Cup Making Machine

It is suitable for the molding of polypropylene, polystyrene, polyvinyl chloride and polyester materials, and can be used for producing beverage cup, milk cup, jelly cup, which is a fully automatic beverage. Plastic cup making machine will be hot forming part and inverted cup stacking function, heating molding process Make the cup, then the cup automatic stack of plastic sheets, cut neatly.

Power 电源	3-phase,380V,50HZ	Power 总功率	123KW
Sheet Width 适用片材宽度	500-740mm	Heating Area 加热温控区域	17 zones
Range of Sheet 适用片材厚度	0.6-2.0mm	Air Pressure 使用气压	0.6-0.7Mpa
Max Forming Area 最大成型面积	600X300mm	Air Consumption 耗气量	3m ³ /min
Max Forming Depth 最大成型深度	120mm	Water Consumption 耗水量	2T/hr
Speed 最大生产速度	20-25 cycle/min	Machine Dimension 整机外型尺寸	12500X3000X2770mm
Heating Power 额定加热功率	112KW	Weight 整机重量	About 10T
