

## YSDT Spices Pouch Packing Machine

1. The snack bag filling sealing machine is the new style equipment, it includes semi-automatic tea bag filling machine and automatic tea bag maker, with reasonable structure, stable performance. It completes tea filling and sealing in one.
2. This machine adopts microcomputer control technology, automatic temperature control, automatic bag length setting, and automatic feeding film to achieve optimal packing effect.
3. The machine just adopts a data cable to connect the tea filling machine and automatic bag maker, reducing the malfunction. Greatly improving the working efficiency.
4. Adopts high quality imported chip and longer life, high precision, high speed, user-friendly design, easy to operate.
5. Computer intelligence clear material, reducing time-consuming
6. Screw feeding material, high precision, without prejudice broken material.
7. Multiple shock absorption structures, machinery running smoothly, low noise.
8. This automatic small plastic snack bag filling sealing machine suits for much different kind of teas, such as powder tea, tea leaf, small granule material, etc.

### Plastic snack bag filling sealing machine technical parameter:

#### filling machine:

Model	YSDT spices pouch packing machine
Voltage	220V
Power	100W
Packing weight	1.5—25g (max: 99g)
Working speed	10-30/time/min
Packing precision	0—0.3G
Machine size	36*41*42CM
Weight	22kg

**Automatic bag maker:**

<b>Model</b>	<b>YSDT spices pouch packing machine</b>
Voltage	220V/50Hz
Max power	400w
Packing speed	700-1000bag/hour
Bag length	40-100mm
Machine size	400×350×750mm
Weight of spices pouch packing machine	30kg
