

## *Vacuum Packaging Machine DZ-320*

The DZ-320 vacuum packaging machine is SWEDEN DESIGN with a single seal unit designed for sealing contents in vacuum pouches. It is equipped with an electronic pressure sensor to assure steady control of vacuum and GAS packaging functions. Both functions can be user controlled.

Additionally, a letter and number kit is included which will allow date and text message identification to be embedded in the seal of each package. A great way to set "freshness" markings. The DZ-320 vacuum sealer is available with a digital control panel that is user programmable to memorize frequent sealing operations and the DZ-320 has a wide, long vacuum chamber that will accommodate very large packages or several small packages in one sealing cycle.
