

T68S Automatic Multi-Materials Pillow Pouch Packaging Production Line

It is used to pack kinds of rice grain, seeds grain, coffee bean, coffee powder and proportional weighing other irregularly-shaped materials.

Main Structures and Performance Features:

1. The whole production line integrates with stamped automatic packaging machine, dedicated precise combined balance with 10 heads, supporting table-board, dedicated chain drive conveyor and final product conveyor.
2. Servo film conveying system, accurate position, excellent performance, beautiful package effect.
3. Impeccable automatic alarming protection function, reducing the wear and tear to the lowest.
4. The machine can automatically perform the whole process like weighing, feeding, filling and bag-forming, date printing etc.
5. With high precision and high speed, digital weighing sensor makes the precise measurement realized immediately.
6. The balance can adjust fine the open-and-close speed of the hopper way, avoiding breakage and sticking.
7. The conveyor can load large volume, and lift high.

Technical data:

Model	T68S
Machine name	T68S Automatic Multi-Materials Pillow Pouch Packaging Production Line
Machine form	Lapel stamped automatic packaging machine
Bag forming shape	Pillow bag, stand-up bag, gusset bag etc.
Bag size	L:100-325mm; W:100-220mm
Filling range	15 - 2000g
Packing speed	25-40 bags/min
Control method	Touch screen control
Air Supply	0.4 cube/min, 0.8MPa
Power supply	380V, 50HZ, three phase four wire
Gross power	5.6KW
Thermal fuse power	1.3KW
Machine dimension	4200*1800*3360mm(L*W*H)
Machine weight	1500KG
