

Tea Box Cellophane Wrapping Machine DF-400B

Overwrapping machine is suitable for the automatic packing of box-shape single objects or multi pack & stack pack. It can replace the box in the paper and also can reduce the packing cost about 95%. Using the machine to pack can defend take proof moisture and proof dust, and etc. Overwrapping machine improve the productions level, increase the productions additional value.

The machine provides high work speed from 15-30 packages one minute, Range of sealing bar widths and a multiple sealing bar option. For all applications that require longitudinal sealing on the bottom of the product.

Overwrapping machine can be linked to with boxing machine to compose packing production line.

Features of Overwrapping machine:

- Adopting the man-machine interface, PLC control, Failures diagnosing software.
- Adopting the servo motor to feed film. The speed and the length can be adjusted. Using the film smooth and length accurate.
- Adopting full cylinder drive. Steady running. Accurately Synchronizing. Conveniently adjusting hard sealing.
- Compact structure. Easy to operation and manipulating complete safety device.

Technical Parameter:

Model	TMP-400B
Packaging material	OPP, BOPP, PVC
Production capacity	5-30 package/minute
Packaging size (mm)	L(100-400)*W(50-200)*H(20-100)
Power of supply	AC 380V 50Hz, 6.5Kw
Work Dressure	0.6MPa
Weight	850kg
Out dimensions(mm)	2350mm×1100mm×1550mm
Size of feed table(mm)	1600×500×850(mm)
