

Automatic PS Seedling Tray Thermoforming Machine TTF-520AF

Automatic PS seeding tray thermoforming machine is used to producing different sizes of seeding trays, egg trays, fruit box, soap tray, flower pot and etc. The machine is completely driven by servo motor.

Technical Parameter:

MAIN TECHNICAL PARAMETER	
Model	TTF-520AF
Forming Area	520mm x 400 mm
Forming Depth (Max.)	100mm
Sheet thickness	0.3-1.8mm
Forming Speed (Max.)	30times/min
Air pressure	0.6-0.8mpa
Air consumption	3 m ³ /min
Water consumption	0.7 m ³ /h
Sheet width (Max.)	570mm
Suitable Sheet	PP, PS, HIPS, PET, PVC, etc.
Power supply	AC 380V, 50Hz, Three-phase, Four-wire
Rated power	110kw
Procedure	Forming-punching-cutting-stacking
Dimension	L11000*W4600*H2700mm
Weight	About 8.0T
