

## *GDF12-1 Rotary Type 2 in 1 Can Filling and Sealing Machine*

### **Product Description**

1. This Rotary Type 2 in 1 Can Filling and Sealing Machine is used for filling carbonated beverage in cans, such as beer, cola, energy drinks and soda water.
2. This beverage can filling machine can be used for different material of cans, such as plastic, iron, aluminum and so on, and the different size of cans is allowed. We can design the equipment according to your requirement.
3. This beverage can filling machine is applicable for equal pressure filler and capper of carbonated drinks in beer and drink industry.
4. The can filling machine is a pop canned beer in the digestion and absorption of advanced foreign and domestic sealing machine on the basis of independent development of the can filling, sealing unit.
5. Filling and sealing is the overall designed, power system by filling sealing system to Ensure that both the absolute synchronization and coordination.
6. Beverage can filling machine adopts the advanced machine, electrical equipment, and Pneumatic control technology.
7. The beverage can filling machine has the characteristics of filling reposefully, high speed, liquid level control, capping reliably, frequency conversion timing, less material loss.

### **Features:**

1. The filing amount is rather average, convenient adjustment.
2. Main frame adopts SUS304, the parts contact with liquid adopts SUS316.
3. It adopts special filling valve which makes washing and cleaning more convenient.

## Product Description

<b>Model</b>	<b>Unit</b>	<b>GDF12-1</b>	<b>GDF18-6</b>	<b>GDF24-6</b>
Capacity	Cans/h	2000	5000	8000
