

KV-250SZ Film Up-feeding Horizontal Packing Machine Flow Pack Wrapping Machine

Features

- **Efficiency:** The Packing machine Integrate Bag-making, filling, sealing, cutting, heating, date/lot number achieved in one progress.
- **Intelligent:** Packing speed and bag length can be set on the Touch screen without changing any parts of the machine.
- **Durability:** Independent temperature controller with heat balance enables different packing materials; Dual inverters controller, upgradable PLC system, self-failure diagnosis, double encoder.
- **Automatic:** Automatic stop function, with safe operation and saving the film. One worker is able to operate it, saving labor costs.
- **Convenient:** Easy to operation and maintenance. The machine can be moved to any workplace, whether it is a home or a factory.
- **Versatility:** One packing machine is able to pack various kinds products, like food, medicine, daily appliances, cosmetic, metals, industrial parts, boxes, trays, toys. It also can connect with other production line working.
- **Customizable:** The length of the machine can be appropriately shortened according to customer requirements. The machine can also be converted to dual servo control by variable frequency control.

Application & Bag Type

Application: suitable for packaging soft and variable, a large number, sticky, slender strips of products, such as biscuits, medical masks, disposable tableware, disposable slippers, medical cotton swabs, disposable gloves, crushed ice, vegetables, fruits, noodles, etc.

Technical Parameters:

Model	KV-250SZ	KV320SZ
Film Roll Width	Max. 250mm	Max.320mm
Bag Width	30-110mm	50-150mm
Bag Length	30-330mm	65-330mm
Packing Speed	40-230bags/min	
Power	220V, 50/60Hz, 2.4kVA	
Machine Size	(L)3770×(W)670×(H)1450mm	(L)3770×(W)720×(H)1450mm
Machine Weight	440kg	454kg
Optional Device	Date Printer/Gas Filling System/Hole Punching Device	
Machine Wrapping	Standard Export Wooden Case
