

Automatic 5-in-1 Bottle Table Water Filling Machine ZXXGF-series

5-in-1 ultra clean filling system integrates two rounds of disinfectant rinsing, aseptic water rinsing, filling and capping. Filling temperature is 65-72°C no need to use the heat resistant bottle, therefore the bottle cost is reduced. As the filling temperature is lower, the sanitary requirement and the microorganism control are stricter. Capacity 6000-40000BPH.

Technical Parameter:

Parameters/Type	ZXXGF16-16-16-16-5	ZXXGF24-24-24-24-8	ZXXGF40-40-32-32-8	ZXXGF50-50-40-40-10
Sanitizer Washing 1	16	24	40	50
Sanitizer Washing 2	16	24	40	50
Washing Heads	16	24	32	40
Filling Heads	16	24	32	40
Capping Heads	5	8	8	10
