

Low Price VFFS Packaging Machine TJ-150J

- The Low Price VFFS Packaging Machine can meet the automatic packaging of various irregular solids (such as powders, granules, blocks) and pastes. Suitable for a variety of composite membranes, PE membranes.
- The Low Price VFFS Packaging Machine has a self-diagnostic function that automatically alarms and prompts you to troubleshoot.
- The Low Price VFFS Packaging Machine is suitable for pillow bags, side folding bags, even bags, hook hole bags.

Features

1. This Low Price VFFS Packaging Machine has a touch screen control interface, which can store the packaging process parameters of many different products. When replacing the product, it only needs to be called up and need not be reset.
2. The drawing power of the die is driven by a servo motor, which not only can accurately control the length of the bag, but also is more stable.
3. The horizontal seal is driven by servo motor to make the operation run without impact and low noise. The sealing pressure can be adjusted arbitrarily, and it can be applied to various thicknesses and complicated structures.
4. This Low Price VFFS Packaging Machine has an intelligent horizontal sealing material detection system to ensure safe operation.
5. This Low Price VFFS Packaging Machine adopts reliable PLC control, precise servo system, imported bearings and international brand electrical appliances to ensure that the machine can work continuously for 24 hours.

Technical Parameters:

Model	TJ-150J
Packing range	5-100ml
Packing speed	30-60 bags/min
Making bag size	L50-150mm, W15-130mm
Packing accuracy	$\leq\pm 1\%$
Air Consumption	0.8Mpa,0.3m ³ /min
Power	1.6 KW
Seal Type	3/4 sides seal, pillow seal
Power supply	1 Ph,AC220V, 50/60Hz
Net Weight	250kg
Machine dimension	L800*W680*H1800mm
